Neuro Club Meeting Minutes for September 27, 2007

The meeting started at 5:30pm.
Steve told everyone to bring ideas for T-shirts to the next meeting so we can vote on t-shirt designs and hopefully get them to everyone before christmas break.
Allyssa also told us about our finances and let everyone know that we applied for the RSO grant.
She told us that the money is going to be put towards any activity that the club puts on and mainly for the Spring Seminar.
Everyone was told that if they knew of a topic or a person of intrest for the Spring Seminar to let us know so that we can get started with the planning of that.
After all of the introductions Dr. Wininger gave his presentation that was very well received by the group and the meeting ended around 7:00pm.

If there is anything else you need let me know and I can see what I can do>

Thanks,
Cami Jones
