

February 2, 2009

Dear Dr. Slinker,

This letter is to inform you of the achievements of an exceptional member of the faculty in the Department of Veterinary and Comparative Anatomy, Pharmacology, and Physiology. The Graduate and Professional Student Association accepted nominations for excellence in advising during the fall semester. The fall 2008 GPSA Excellence Honor in Advising was awarded to David Rector. This distinguished advisor has set himself apart amongst his students.

Exceptional mentors beget exceptional scholars and I encourage you to share the success of Dr. Rector with the colleagues and students within your department. I commend you on the clearly exceptional work taking place within your college.

Sincerely,

Jessica Moore

President, Graduate and Professional Student Association
