Washington State University
Consent to record and use imagery and voice, adult participants only

I _______________________________ (print name), hereby grant permission to Washington State University (WSU) and its assignees including the Washington State University Foundation to photograph me or otherwise have images or voice recordings made (including but not limited to digital photographs, video or digital moving images and/or voice recordings), for any WSU publication or purposes in support of appropriate university programing in any medium (including but not limited to print media, newspaper, television, video, motion picture, or Web site or use on the Internet).

I additionally consent to the use of my name and/or interview comments in connection with WSU and its assignees in publications or for purposes supporting appropriate university programing in print media, newspaper, television, video, motion picture, or Web site on the Internet.

I understand that consent to use my likeness or voice recordings is not a condition of participating in the activity and that consent can be refused without any impact in the ability to fully participate in the program. No inducements or promises beyond my acceptance of an opportunity to support WSU and its assignees and programs have been given to me.

Any other use of images and/or recordings, my name, and/or interview comments requires advance permission. I understand that I can revoke this consent at any time upon notice to WSU, at which time I will sign a copy of the denial (below) for use of images or voice recordings.

WSU STUDENTS: The Family Educational Rights and Privacy Act (FERPA) and the Washington Administrative Code 504-21-050 limit the release of personally identifiable information from student education records in the absence of a signed release from the student. The information described above may be protected by FERPA and WSU regulations, and your agreement below constitutes a release, under FERPA and WSU regulations, of this information, for the purposes specified above.
